- Bass Amp x1

SIGNAL / SETUP DIAGRAM

THE BAND WILL BRING

ADDITIONAL SOUND NOTES

- The kick drum trigger signal will be sent through a DI. Please blend the trigger sound with the acoustic kick drum sound to create a powerful, dance-music-style kick. It is fine to shape the trigger sound with EQ or other processing.
- For the audience mix, please keep the drums relatively loud, and please make the overall band sound powerful and impactful.

NOTES

- Please provide clean power at the locations shown.
- Let us know if anything requires adjustment.
- Thank you for your support!
